## About

---

Hi, I'm Amalya. I'm an art director and designer, and a fourth year student of Visual Communications at Shenkar College. I have always been a conceptual person, finding meaning in the smallest details, and so concept has become my biggest strength in design. I love and am good at working with people and problem solving, and I'm always eager to learn something new.

In my projects, I love creating design that is both aesthetically pleasing and conceptually meaningful.

I am passionate about Video, Brand Identity and Print.

Fun fact: I also do tattoos!
